Brewer, a public spirited citizen who after viewing the operation of similar plans in Southern Ontario became an indefatigable apostle of such a plan here.

Mr. Brewer hammered away unceasingly to get a program of community recreation and education underway, addressing the town council on the matter speaking before the town's service clubs and button-holing every person he knew to sell the plan to them. He got

Fromally the TCAC was an outgrowth of the old Youth Welfare council and it got underway last February 1, when R. E. "Bim" Sturgeon was appointed director of recreation. Town fathers set aside a budget of \$28,000 for the work and the province promised assistance by way of paying the salary of the director.

Something of a sensation was created As Spring merged with Summer, the TCAC brought forward a specialized program of playground activities for the town's children. Four playgrounds were established about the town. Qualfied instructors taught children archery, swimming, tennis and track and field sports in addition to regular playground games. Swimming, archery and tennis classes were held twice a week and a special session for track and field enthusiasts was held once a week. Particularly popular among the children was the swimming program at Gillies lake. Here lifeguards and instructors went all out to teach swimming and by the season's end more than 260 had been successfully taught to swim and some 600 in all had received instruction. Meanwhile 14 swimmers had become qualified as instructors, 65 obtained Red Cross awards and many passed the standard life saving tests.

Tennis was also well supported. Using the Hollinger courts 150 youngsters were organized into a community lea-
