of TIMMINS and DISTRICT

## WRITE YOUR RELATIVES IN ITALY ... TELL THEM ABOUT DEMOCRACY!

Within a month, elections will be held in the land of your birth. The results of the elections will mean much to the prosperity of the world, of Italy and to your relations with your own flesh and blood in Italy. It is in your power to spread the gospel of democracy among your own people. Write to them today. Write by air mail, cable or telephone. Tell them of the advantages and freedoms which you enjoy in a country that is not dominated by Communists and the anti-religious dogmas of the Communist philosophy. If you help them to make up their minds, freely and carefully, thinking of the future of themselves and their country, if you show them the great opportunities for everyone under democracy, you will have done your part.

### Fight Communism! Write Today! Defend Democracy!
