MARKED JARS

All kitchen jars and bottles should be labelled. In case of illness and a stranger is in the kitchen, she can find things readily, and all confusion will be avoided.

POTTED PLANTS

An excellent fertilizer for potted plants is to take tea leaves that have been used and put them around the plants. It will also stimulate the growth.

FLOWERS NEED SUGAR

In 1908 French horticulturists found that cut flowers could not be kept fresh by adding chemicals to the water unless sugar was added too.
