Extra Pigs Bring Extra Profit

A most serious loss to hog producers is caused by the high mortality of baby pigs. Between 25 and 30 per cent of the pigs farrowed on farms die either still-born or die within the first few weeks after farrowing.

Sanitation is the best and cheapest means of disease control. Before the sows farrow, pens should be thoroughly washed, first with boiling water then with a lye solution of one pound of lye to twenty gallons of lukewarm water.

Wolf Hunting Popular Sport

Wolf hunting as a sport shows signs of becoming a popular winter attraction in Northwestern Ontario. Recently a party of eight American hunters bagged five large wolves during a visit to that area. At the present time non-residents of Canada are not eligible to receive bounty payments, but efforts are being made to have them receive payment for each wolf killed. At \$25 per pelt, a bag of several animals would help considerably in paying the cost of such trips.

John Smith Jr. Difference Between John Smith II

Canadians are familiar with instances where one member of a family is named "John Smith" and his son is called "John Smith, Junior". However, we are not so familiar with, nor have we made common use of, the designation "John Smith 2nd" or "John Smith II". There is a difference between these terms which may not be generally realized.

RUSSIA

About the middle of February Moscow officials accused Anna Louise Strong of being an American spy and ordered her to leave Russia. This occasioned considerable surprise, as Miss Strong has long been known as a writer with fairly pro-Communist views.

In her return by plane to New York, Miss Strong gave her own explanation. Asked why she was expelled from the U.S.S.R., she told reporters:

"I was doing a d--- good job of getting on the toes of a number of officials I didn't know at the time I was doing it, but I know it now. In the present disturbed conditions of the world, any normal question by reporters arouses suspicion of officials in government, especially lower officials. There are stupid officials in every government."

She didn't add that Russia had a greater proportion of such stupid officials than most countries. But she very probably was thinking so, even if she didn't actually say it. Gleazer

Province of Ontario Serve Afternoon Tea

The Province of Ontario will serve tea daily to visitors during the coming summer at several of the tourist reception centres maintained by the Department of Travel and Publicity at border points throughout the province. Visitors arriving at mid-afternoon or mid-morning will be the recipients of this welcoming gesture. English hotels have made a practice, in the past years, of serving a 'wake-up' cup of tea to guests. On this continent, many hotels make a habit of providing a copy of a morning newspaper to all guests, or in some cases, to those guests who order breakfast served in their rooms. For an additional daily fee, some hotels now provide television receiving sets for the convenience of their guests.

Why Seagram's sells Canada first

This is an adaptation of one of a series of advertisements designed by The House of Seagram to promote the prestige of Canada and help sell Canadian products to the markets of the world.

The campaign is appearing in magazines and newspapers published in various languages and circulated throughout the world. The peoples of many lands are told about the quality of Canadian products and see Canadian scenes illustrating these products.

The advertisements are in keeping with the belief of The House of Seagram that the future of each business enterprise in Canada is inextricably bound up in the future

of Canada itself; and that it is in the interest of every Canadian manufacturer to help the sale of all Canadian products in foreign markets.

A campaign such as this not only helps Canadian industries but also puts money in the pocket of every Canadian citizen. One dollar of every three we earn comes to us as a result of foreign trade. The more we can sell abroad the more prosperous we will be at home. It is with this objective that these advertisements are being produced and published throughout the world.
