MISMARRIAGE. James Sinclair, witty Liberal member for Vancouver North, had the last word--and laugh--on a CCF and Progressive Conservative member in the House. It was probably the funniest remark of the year, in the opinion of the Press Gallery correspondents. The CCF member described a European trip he had had with the FC member. "I will even go so far as to admit -- and one should not admit this in public--that one night in Scotland he and I slept in the same bed." Sinclair quipped "Was that the night the Progressive Conservative party was born?"

You Have Cooperated Well Ontario Employers --

And it looks now as if most of the undergraduates from Ontario universities needing summer employment will be able to find it by the end of the school year.

The situation with regard to permanent jobs for graduates is also promising.

However, MORE summer opportunities STILL are needed for undergraduates and permanent openings for graduates, especially for "Arts graduates" whose training has not fitted them for any particular industry, but who will react quickly to an employer's advantage after brief training on the job.

Through the "clearance system" of the National Employment Service, the Executive and Professional Liaison Officer at your local office can locate a graduate or undergraduate from almost any course you can name, either from within the province or neighbouring provinces.
