# Ski Tales and Trails

By LEANA PRINCE

First we would like to let the weatherman know what we thought of the weather over the weekend. REALLY MISERABLE is all that's necessary. Frozen fingers, noses, and cheeks were the order of the day.

After last weeks heavy snowfall tramping the trails at Kam took considerable time and effort. Once finished they made grand skiing. Let's hope they stay this way until next weekend at least.

Tom Hurdmann of Iroquois Falls spent the weekend in town visiting and taking ski lessons from Jerry Morin. Tom goes to North Bay to compete in the NOSSA Championships which are being held this weekend. Good Luck Tom.

Mr. & Mrs. Merton W. Lake, Mr. & Mrs. D. Wymess, Jule Baderski and Mary Thompson spent the weekend skiing in Kirkland and 1 arder Lake. Both clubs have ski tows, however Kirkland's was temporarily out of order.

The word received from Steve Edlestein and Meyer Bucovetsky, who are at present skiing in the Laurentians, tells of good skiing as well as a good time. Leave it to someone from the North to find snow where there is supposedly none.

Speedy recovery is being made by George Metcalfe and Cecil Sparrow, both suffered sprained ankles while skiing.

If you have never taken ski lessons consider the following a resembling regime of what your first might be like. It is known as the "Snowplow" and is the foundation of controlled skiing.

The instructor will line his class ready to start and your position is thus: stand with your skis pointed downhill, spread the back ends about 4 ft. apart, the tips about one inch, bend forward from the ankles—rolling them out at the same time to keep your skis flat, now bend your knees; No! No! not in to touch one another but out forward toward the tips of the ski. Remember the forward lean, never sit back. Weight evenly distributed on both skis, your poles are held up and out in front. Now with the foregoing position just try shoving off; better still ask your next in line for a push. You must not fall or you are accused of sitting back, if you edge your skis you are cheating. As you go down the hill the instructors comments sound like this "No! no! no! not like that—lean forward not back! bring those poles up! push your knees out! bend from the ankles! don't edge those skis. Oh well! fill in your bathtub and take your place in line." If you can't do the Snowplow you just can't ski. Really it's so-o-o-o easy Try it.

Don't forget the ski bus to Halleybury this weekend. Phone Henry Babin at 2766-M immediately. Thirty-five passengers are required to make the trip possible.

## An Important Announcement about NEW MARGENE

When the sale of Margarine in Canada became legal 12 months ago, MARGENE was the first brand to appear on the market.

At that time Margarine had been banned from Canada for 25 years. There was no way of knowing what flavour and what texture would best appeal to the Canadian palate.

In the intervening 12 months, Canada Packers has carried on week-to-week tests to find out exactly the flavour Canadians wish.

We feel we have it in the NEW MARGENE—the flavour and the texture Canadians like.

If you have not tasted the NEW MARGENE try it now.

SPREAD IT on hot toast.  
SERVE IT with hot vegetables.  
BAKE with it.
