NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Council of the Corporation of the Town of Timmins to pass the following by-law after due notice thereof has been published in accordance with the Provisions of the Municipal Act.

"Town of Timmins

BY-LAW NUMBER

BEING A BY-LAW to stop up a certain portion of the original road allowance on the East Bank of the Mattagami River within the Corporation of the Town of Timmins.

WHEREAS the Council of the Corporation deems it desirable to close and stop up a certain portion of the original road allowance on the East Bank of the Mattagami River;

AND WHEREAS notice of the intention of the Council has been duly advertised as required by the Municipal Act, and all persons who claim that their land will be prejudicially affected by this By-law and who applied to be heard, have been heard by the Council.

NOW THEREFORE BE IT ENACTED as a By-law of the Town of Timmins as follows:—

1. That portion of the original road allowance on the East Bank of the Mattagami River between the projection westerly of the north boundary of Algonquin Boulevard and the north boundary of Plan M-37 Sudbury being the north boundary of the Town of Timmins is hereby closed and stopped up.

2. The Corporation may lease or sell the portion of the original road allowance so closed and stopped up.

And Further take notice that any person who claims that his land will be prejudicially affected by the By-law and who applies to be heard, will be heard by the Council, in person or by his Counsel, Solicitor or Agent, at a time to be fixed therefor upon the application to be heard.

DATED at Timmins, Ontario this 29th day of July, A.D., 1947.

SOUTH PORCUPINE South Porcupine Newsletter

Mrs. Sullivan who has been spending the past three months at the home of her daughter Mrs. H. Ferrigan left on Wednesday for her home in Calumet Island. Accompanying her were the Misses Renu and Olive Sullivan who have also been the guest of Mrs. Ferrigan for six weeks.

DR. W. D. McFARLANE

William Douglas McFarlane, Ph.D., F.R.S.C., for the past 11 years chairman and professor of Chemistry at MacDonald College of McGill University, has been appointed director of research for the new C.B.L. Research Institute in Toronto, it was announced today by D. C. Betts, President of Canadian Breweries Limited.

The Institute, a division of Canadian Breweries, is now under construction on Toronto's lakefront and is expected to be opened officially early in 1948. The building will have a basement and two floors with a 125-foot frontage and a depth of 63 feet.

Research, generally, will be devoted to the development of new uses for Canadian farm products in industry and expansion for existing uses. The Institute hopes to create new and wider markets for potential and present farm products. Specifically, Dr. McFarlane, currently in London England attending the centennial celebration of The British Chemical Society will direct research in six principal divisions:

(1) Engineering and development of new or improved equipment for (a) research on brewing and malting (b) the processing of oil seeds and their by-products (c) the processing of food and feeds.

(2) The fermentation division will carry on fundamental research in bacteriology and micro-biological chemistry relative to the development of improved malting and brewing processes.

(3) The oil division will be engaged in development of new products and in the study of quality and stability of the products. New and improved methods of processing vegetable oils will be investigated.

(4) The protein division will conduct chemical studies relating to the development of vegetable proteins for commercial use.

(5) The food technology division will be engaged in research to extend the use of soybean and yeast products in the baking industry and to develop new food products.

(6) The analytical chemical division will be organized to carry on studies in the composition of agricultural products and to provide service work of an analytical nature for the other divisions.

Dr. McFarlane, born in Glasgow, Scotland, in 1900, has been associated with developments in food chemistry and the utilization of farm products for 25 years. He came to Canada in 1922 after receiving the College and National diplomas in agriculture and the National diploma in Dairying at the West of Scotland Agricultural College. In 1917-18 he was a cadet pilot in the Royal Flying Corps.

He attended the Ontario Agricultural College at Guelph and the University of Toronto, served at O.A.C. from 1925 to 1930 as a demonstrator in chemistry, an analyst and lecturer

Carelessness Causes The New Assistant General Manager of The Imperial Bank

(Continued From Page One)
Itoba boundary, but his chief work would be along the O. N. R.

The guest speaker said that carelessness and negligence were the chief causes of fires. Cigarettes were given first place in the list of fire causes. Next came defective heating appliances. This second cause resulted in many cases from difficulty in securing repairs or new material. He advised all to check their heating apparatus to assure its safety.

A third main cause of fires was defective electrical equipment, or the abuse of electrical equipment by overloading or misusing fuse material. The fourth leading cause of fires — inflammable fluids, such as gasoline — had been reduced 75 per cent. by new laws in regard to containers for gasoline, and the storing of gasoline.

Fire Marshal Scott proved his theory that most fires were due to carelessness and negligence by pointing to the cases of Toronto and Havana, cities of about the same population, 650,000. In Toronto there are less than a couple of million dollars a year. In Havana, it was only \$10,000 a year. In Havana, when a fire occurred, the occupant of the building went to jail, until he could prove (from jail) that the fire was not due to his carelessness, negligence, or worse.

Kiwanian W. Doran, chairman of the Fire and Light Committee of Timmins Town Council, introduced Fire Chief W. Stanley, who introduced District Inspector Joe Miller, and Fire Marshal W. J. Scott, K. C., Chief Stanley referred to the good work of Fire Marshal Scott during the past fifteen years, and the highly efficient and valuable staff of the Fire Marshal's department at Toronto.

On behalf of the club, Kiwanian F. A. Woodbury thanked the Fire Marshal for his valuable address, and congratulated Kiwanian Joe Miller, of the South Porcupine Club, on his appointment as District Inspector, following his able services overseas in the fire-fighting forces there.

President O. R. Kennie added his personal words of appreciation of the address and the visitors for the day.

The visitors for the day included: Fire Marshal W. J. Scott, K. C., Toronto; W. Stanley, Fire Chief, Timmins; District Inspector Joe Miller, of the Fire Marshal's office; A. C. Clarabut, Kirkland Lake; and W. H. Burnes, of New Liskeard, for many years a valued member of the Timmins Kiwanis, and a recent Past President.

Among those at the head table for the day was Kiwanian Jack Hunt, president of the Timmins Volunteer Firemen.

Community singing for the day was led by Nick Basciano, with Secretary W. H. Wilson at the piano.

Little Tommy was asked the difference between prose and poetry. He pondered for a while and then said: "There was a young man named Rees, who went into the sea up to his ankles." "That's prose," he said. "But if the water had been a few inches higher, it would have been poetry."

Like the three before, Princess Juliana's new bundle from Heaven is a girl, which may seem monotonous, but not to parents with four girls in the house.

in analytical chemistry and as a biochemist for the British Empire Marketing Board at O.A.C. Then for six years he was assistant professor in biochemistry at the University of Alberta during which time he gained his Ph.D. from University of Toronto in 1932. He became chairman and professor of Agricultural Chemistry at McGill in 1936.

The New Assistant General Manager of The Imperial Bank

John S. Proctor, for the past four years manager of the Imperial Bank of Canada's main office in Montreal, at St. James and McGill Streets, has been appointed assistant general manager and will leave shortly to take up his duties at Head Office, in Toronto. Mr. Proctor, who is 43, started with the Imperial Bank 25 years ago in Victoria, B. C., as office boy.

He will be succeeded in his Montreal post by E. J. Fatesen, of Winnipeg, who prior to 1944 was assistant manager of Montreal main office and is at the moment supervisor, Head Office, Toronto.

Tall, athletic John Proctor, well known among Montreal business men, left the University of British Columbia to join the Imperial Bank in 1922, and was shifted to Toronto as junior teller five years later.

By 1933 he had become assistant manager at Toronto branch and, four years ago, came to Montreal as manager. He is married with one daughter.

Tennis has been his life-long interest. He won the Canadian Men's Doubles championship in 1926, later the Ontario Doubles; on two occasions the Canadian Mixed doubles. He was for 12 years treasurer, the Canadian Lawn Tennis Association, and is now president, Hillside Tennis Club (Montreal), and a director of the Alouettes Football Club.

His widespread activities include directorship in the Interlake Tissue Mills and Montreal Welfare Federation; treasurer, the Family Welfare Association; vice-chairman, Montreal Branch, Canadian Institute of Mining and Metallurgy, and councillor, Quebec Province, for the same body; vice-chairman, Mines and Natural Resources Branch, Montreal Board of Trade.

During World War II he served three years as adjutant, Reserve Battalion, Governor General's Horse Guards, in Toronto.

Planning Program

(Continued From Page One)

widening streets in any district, a minimum set basis for front yards will be included, and a set square footage interior measurement of houses built in any of the planned areas. This new zoning law will not apply to the present built up areas, but will effect new developments and future reconstruction.

The Doctor explained to an attentive council that not only was the enforcement of a zoning law necessary, but that a properly controlled law would be of benefit to everyone and to the community.

When the planning advisor next comes to town it is the intention of the council to invite the representatives of all groups to meet and discuss, not only the zoning law, its benefits and restrictions, but also to plan the future publicity which it is hoped will bring new industries into the community.

Here we go again, reporting the doings and misdoings of our members in the Glue Pot. Friday was a very wet day outside as you know, and many of the boys thought it would be better getting wet inside than outside so they got together and had a little song a sort of pay day special.

The orphans Choir were in attendance, including, comrades, Nixon Winder, Jenkin, Pennington and Johanson and John Tessier at the piano, Pennington, to brighten the day a little sang April Showers, comrade Jenkin tried to accompany him, but was drowned out. It was really a very enjoyable evening, much enjoyed by all, even the Stewards.

You have heard the story of Samson and Delilah who betrayed him by cutting off his hair to which he attributed his strength, well, we have another Samson in our midst in the person of Art, and you know Arthur, he claims that he also has strength in his hair and defies any Barber to shave him, what about it comrades Bill and Joe can you do it, maybe gratis too.

On Saturday evening we had another social get-together, an evening of community singing, with comrade J. Tessier at the piano and George Sutherland and his Mandelini which went over good with the crowd.

These little sing songs are becoming a regular occurrence now and seem to be appreciated by the members which is all to the good, there was quite a good attendance up and down. Upstairs we have those who love their little Nap in quiet and crib players who are not music minded enjoy their evening in their own quiet way.

We welcome Comrades Fred Urworth of Boston, Mass., Jack Underwood of Cobalt, past President of that Branch, and Harvey Sparling of Hamilton, who several years ago was a member of the Timmins Branch, these comrades are spending their vacations in the Porcupine district. The Legion Skunk Trophy for Cribbage is still held by comrade A. Walsh who has two pelt lead over G. Bowle, there has been quite a battle between those two in the recent week trying to do each other out, George winning out. The same two along with Joe Raymond are beginning to think they are Dart players to be reckoned with and are contemplating in having a team for next season in the Timmins Dart league, we hope they do.

If there is any of the members having played Green Bowling before and

would like to play again get in touch with the sports committee or place your name on the list for that purpose on the notice board at the hall. It is a real old English game and when I say English I really mean also Scotland and Ireland, but England I think it was mostly Crown greens, up north it was mostly the flat green, it will prove a good past time and there should be lots of Bowlers available perhaps to form a league in the Branch.

You will all be glad to know a start has been made on our new Hall out on the Highway, a Tool shed has been erected.

To our sick members in Christie St. Hospital comrades Art Loader and Geof Morris, S. Lynsey, in Gravenhurst, A. Sinclair, in Divulide Hospital Toronto, E. Barker we send our very best wishes for a speedy recovery.

In St. Mary's Hospital, comrade Henry Roy and comrades, Bob Russel, Doug Cotcher, J. McFarlane at home we also send our very best and hope to see them around soon. To our comrades still serving overseas and to those who left here to reside over there, Comrades, Curtis, Hulme, Law, Fairnie and Aston we send our best wishes and regards and hope you are doing well and still reading this bits of news from the old Branch. On Saturday morning a party of Fishermen awaited vainly from nine a.m. for the car that was to take them on a fishing trip, the car got away, so there was no fish, so they finished up shooting Bulls on the Dart board, they got some. Comrade Bob Lacey returned from North Bay, being down there for a check up, came back whole. Bill Hogg has also been called down there, we do wish him luck. Comrades Bob Wallace and Austin Neame are holidaying and we hope they are enjoying themselves.

If there should be a member who has missed his car key in the last two weeks call in at the Club, we have one here, it is affixed to a plastic hand grip. We have also a spring coat, brown in color, been here for some time, the owner can have it he calls in.

We regret the passing of comrade Jack Davies of Schumacher son of Ben Davies well known member of Branch "88" he is being buried from Walkers Funeral Home.

Our well known comrade Bill Pennington was always known as a Geordie and as a sheep stealer, rubber boots and all, now he seems the idea of being a Geordie, he claims he was born in Scotland, and as one guy says, he must have went over to the invaders with the sheep they stole. When England invaded Scotland and were repulsed all the sheep they laid their hands on went back with them, and almost up to this day, they have had to send to Scotland for sheep for breeding purposes, (according to history)

We can hardly believe it yet, Bill, but as Rabbie Burns said a mans a man for a that! Such is life and the happenings in the clubrooms.

J. Gordouq.

GREEN WHITE OR AMBER BOTTLES

?

TRADITIONALLY, Ale has always been distributed in green bottles but, owing to the present shortage of green glass, some Ale is being bottled in white or amber bottles.

This is a temporary measure—and does not in any way affect the quality of the product.
