

Business Arrangements.

(1) The manufacturer shall draw the milk, manufacture and care for the cheese during the curing, provide boxes and all necessary furnishings, at a charge of two cents for every pound of cheese which is manufactured.

(2) Patrons who may be dissatisfied with the weights of their milk as recorded at the factory, must report the same to the Directors, that they may adjust and settle the matter.

(3) The milk of each patron shall be tested at any time during the season; and, at the discretion of the Directors, a statement of the quality of the milk of all the patrons shall be posted up in the factory in a conspicuous place, where it may be seen by all the patrons

(4) In case any milk furnished should be of such doubtful quality as to warrant the assumption that it has been adulterated an Inspector appointed by the Directors shall visit the premises of the patron, see the cows milked morning and evening, and have the quality of such milk compared with the record of the tests made of the milk which he or she was previously furnishing, and if a substantial difference in the quality be evident, it shall be optional with the Directors as to whether they shall, (1) prosecute the patron according to law, (2) effect a settlement upon the payment, to the funds of the manufacturer or the patrons, of such a sum as may be agreed upon, or, (3) exclude the patron from the privileges of the factory for a stated number of years.

(5) Each patron, upon being notified, shall convey in a wagon, or otherwise, his or her share of the cheese which has been manufactured from the factory to the point of delivery as agreed upon by the Salesman, and failure to comply with this rule will subject the patron to a fine of \$2.00, which shall be deducted from his or her share of the receipts from the sales of cheese. It is open to any patron to find a substitute for the drawing of cheese.

(6) Each patron shall be entitled to the cheese required for use at his own table at wholesale price; but no cuts shall be made in less quantities than enough to take a whole cheese.

(7) In the case of any patron who does not continue to furnish the milk from his or her herd to the factory until the close of the manufacturing season, a sum equal to two cents per pound of all the cheese manufactured from the milk which they have furnished during the season, will be deducted from his or her share of the receipts, unless he or she shall first have obtained the consent of Directors to such discontinuance.

The Directors shall insure the cheese against fire.
