

THIS WEEK AT THE MOVIES

All the jive fans and solid music lovers will be glad to hear that "Syncopation" is billed for March 18th. This lively musical features such great virtuosos of the music moderne as Charlie Barnet and his saxophone, Benny Goodman and his clarinet, Gene Krupa on drums and Harry James blowing his hottest trumpet. Adolphe Menjou, Jackie Cooper and Bonita Granville lead the supporting cast.

For those lovers of drama, the like of which is produced only by Eagle Lion, comes another hit called "Johnny Frenchman" starring Patricia Roc, need we say more. This picture will be shown in the Recreation Hall both Friday and Saturday nights along with selected shorts.

Remember, the shows begin at 7:30 so come early to get a seat.

'ROUND THE RINKBroom Ball & Hockey

The hockey season got under way with four house league games being played as a preliminary training for broom ball.

After recuperating from this sport, the Terrace Terrors visited the Nipigon club on the week-end of February 16th for a decision of 10-2 in favour of our up lake neighbours.

Two games of great local interest were played in Schrieber with the Colts who showed their Iron Horse lineage by posting themselves the major portions of 12-7 and 16-1 scores.

The Terrors evidenced a good show in spite of a tardy start. Harry Ganga was unsurpassed in skating and stick-handling; Billy Burke maintained a good play-breaking defence. A promise of talent which would be developed in the future season was shown by the other Terrors, who were:

GOAL - Red Gooderham, and Tony Delaronde  
 DEFENCE - Frank Baratta; Don Gow; Ed Burke; Bill Burke; "Doac" Bonner;  
 FORWARDS - Murdo Campbell; Bill LeBlanc; Bud Brotherton; Jack Parsons;  
                   Harry Ganja; Walt Lemiski; Johnny Delaronde; Johnny MacDonald;  
                   Jack Enstrom; Mike Chorney; Albert D'Angelo..  
 COACH - "Casco" Kozak  
 TRAINERS - Bill Lessy and Albert Moro.

SNOW USE ON SNOW SHOES

Canadian winters have a fascination for our southern engineers. One that we know turned to the great out-doors early one Saturday afternoon. Later that same day, our reporter's eye was attracted by a parka covered mass burrowing itself into the snow. It proved to be the same engineer attempting to extricate himself from a snowshoe. The point is - "Build a better snowshoe, and if the world doesn't beat a path to your door, Gordie Stewart will."
