STAFF MEETING

Mr. H.S.Craig, Manager of LongLac Pulp and Paper, called a meeting of the LongLac supervisory staff at the Millsite Office (Office #2) last Wednesday evening, April 23rd. At the meeting, Mr. Craig outlined the various changes and additions made in the LongLac organization during the past few months and threw out the challenge of the big job confronting everyone associated with the project in bringing our mill into operation.

Mr.C.W.Nelson, Vice-President in charge of Kimberly-Clark expansion and Mr.A.Wakeman also a member of the expansion committee, spoke briefly to the gathering. Mr.B.F.Smith and Mr.S.M.Neuville, in charge of mill design, were also introduced.

The treat of the evening was a talk and discussion on the sulphate process of pulp production led by Mr. B.F."Bernie" Smith who used the blackboard to illustrate his talk with numerous sketches which were very enlightening.

The many questions asked during the evening were answered to the entire satisfaction of everyone present and it was the general concensus of opinion that "we should do this more often".
