

The O.C.C. "Steamrollers" continued on their winning-way last week. On Thursday night, the team swept to an imposing 12-0 victory over the Fraser-Brace "Rummies". "Big Jim" Cairns pitched superb ball, and came close to achieving a "no hitter". Only two safe hits were allowed and the "Rummies" did not manage to get a man as far as second base.

Friday night, the team journeyed over to the Hydro and again demonstrated their ability by pounding out an 11-2 win. The highlight of the game was the long smash of Jim Brett's to centre field.

The newly-christened "Draglines" have had a little difficulty getting underway. They dropped their first tilt by one run and took their second by default. However, Ken Duncan is still optimistic about the team's future.

Let's try and have bigger crowds on hand to give the boys support in the future.

TERRACE BAY ANGLERS' CONTEST

During the past week, fish have been biting more in keeping with the reputation of these parts and any evening, fishermen (and women too) may be seen heading for favourite haunts.

In the Terrace Bay Anglers' Contest, prizes are being offered for the heaviest fish caught in four classes. All fish must be angled in this locality and anyone connected with the project may enter. Just take the fish to the Official Judge, Postmaster Ed. Cavanaugh, and fill in entry form -- that's all there is to it. Chairman of the contest is Rupe Clowes. Prizes of \$5.00 and \$2.00 are offered in each class.

Leaders in Contest to Date

- Class #1 - Speckled Trout: Paul Boudreau (LongLac Pulp & Paper), fish weighed 2 lbs. 8 oz.
- Class #2 - Lake Trout: S. McCormick (New Idea Sheet Metal), fish weighed 8 lbs. 6 oz.
- Class #3 - Pike: Geo. DeLong (LongLac Pulp & Paper), fish weighed 9 lbs. 1 oz.
- Class #4 - Pickerel: George Gobeil (LongLac Pulp & Paper) fish weighed 2 lbs. 8 oz.

THE NEW ARRIVAL

Saturday morning, July 5th, marked the appearance at Terrace Bay of a new and important piece of fire-fighting equipment. This apparatus, a completely equipped heavy-duty pumper, was wholly outfitted by the American LaFrance Fire and Foamite Company on a three ton specially designed Ford chassis. The pumper has a 200-gallon reserve water tank serviced by a 150-foot, 3/4-inch booster hose; thus enabling the fire fighters to fight fires away from available water supply. Connections can also be made to boost water pressure from hydrants or to pick up water from rivers,
