

Week-end guests of Mr. and Mrs. Stan Butcher, were the former's parents, Mr. and Mrs. P. Butcher of Winnipeg.

-c0o-

Mr. and Mrs. Harold Marsh and family have returned from a 3,000 mile motor trip to Moosejaw and Regina. Mrs. Marsh's sister, Mrs. J.R.McDiarmid and her husband returned with them to Terrace Bay.

-o0o-

Mrs. Neil Campbell, Arnprior, is visiting with Jim and Kay Isbester. Kay, a former Arnprior Campbell, is very happy to have her mother visiting Terrace Bay.

-c0o-

Visiting the Dr. and Mrs. McCauslands are Lois' parents, Mr. and Mrs. L.J.Haywood of Dunnville, way down in Southern Ontario.

-c0o-

Everybody around the Townsite is commenting very favourably about the new street lights which are being installed. As a matter of fact, said lights have been mistaken on two or three occasions already for a harvest moon. Tut! Tut!

-o0o-

Twenty-three houses have been erected to date in the Townsite as part of the '47 program. The seventy-five houses of the '46 program are virtually complete except for some exterior painting.

-c0o-

Rumour has it that the Covington piano has been taking a terrific beating lately, due to the neighbourly visits of Townsite folk who just love to tickle the ivories.

-o0o-

Since the influx of Braser-Brace families to the Townsite, it is noticeable that landscape artists are at work almost every night. Rumours are flying that there might be a prize for the best "set-up". One gentleman has a classy terraced rock garden while his dad goes for lawns and flowers. Our dough is on the deacon.

-c0o-

Notice regarding the opening of a temporary "Terrace Groceteria" is contained elsewhere in this issue. It will also be of interest to record the fact that ground was broken in the Townsite on July 19th for the shopping centre.

TERRACE BAY ANGLERS' CONTEST

During the past week, there has been no change in the standings of the Terrace Bay Anglers' Contest as reported in our last issue. Prizes of \$5.00 and \$2.00 are offered in each of four classes, speckled trout, lake trout, pike and pickerel, so come on gang, turn 'em in for weighing at the Post Office to official judge Postmaster Eddie Cavanaugh.

ON THE LAKESHORE

By Walt Lemiski

Progress is slow but sure on the installation of the 48" concrete pipe. To date, three 36-foot length sections have been laid and the excavation for the fourth has been begun.

On the pumphouse itself, the screen chamber is taking form with a portion of the concrete walls poured. Retaining walls of sheet piling are to be driven in about a week from the pumphouse to the lake. These are to facilitate the placement of the concrete intake pipe into the Lake.

On the west side of the Bay, R.Ostling and his boys are still gunking the dresser couplings. The expert on this gunking procedure is Bob Davidson. Incidentally, Bob has a new nickname -- wonder where he got it.

One thing that the boys on the Lakeshore can boast about is the good tans they got. There were only a few hot days but they sure took advantage of them!
