

ON THE LAKESHORE (by Walt Lemiski) With the arrival of the second derrick and tug the work on the water intake was speeded up considerably. Work during the last few days has been at a standstill on account of rough waters.

Say, Scotty, did you find the water very cold last Saturday?

Preparations are being made on the pumphouse site to pull out the sheet piling around the screen chamber. Bob Stirling will require some husky lads for that job. Once the piling is out it will be redriven to form retaining walls from the screen chamber into the lake in order to facilitate laying of concrete intake pipe near the screen chamber.

The Terrace Bay Clipper has been placed on 24 hour duty. Bill Scott is on the night shift and Verne Thompson on the day shift. Good-bye fishing! Apparently fishing hasn't been so good lately with a number of cases of sea sickness.

President - T. McDonald
Vice President - Ruth Bangartt
Sec-Treasurer - Grace Noer

All personnel interested in playing tennis are urged to support this Club and watch for further information in forthcoming issues of this paper.

"COMETS" Win Two (by Ted McDonald) This past week the Longlac "Comets" cinched first place in "A" Division of the Terrace Bay Softball League by trouncing O.C.C. Bulldozers 17-4 and Hydro Kilowatts 9-1.

After a shaky start against Bulldozers on Tuesday when 'Dozers scored all their runs in the first inning, Paul Cybulka, "Comet" Ace, settled down and hurled in masterful fashion to leave no doubt as to which was the better team. Murdo Campbell, Don Gow and Joe Heenan played heads-up ball for "Comets", with the balance of the team providing faultless support.

Jerry Ferguson, O.C.C. pitcher played fine ball and was afforded little support by his team mates who made several run providing errors.

At Hydro, the result was never in doubt as Kilowatts went practically hitless against Cybulka. Brady, Gow and Cybulka shone for "Comets" but the feature play was a triple by Brodick with the sacks loaded. Score 9-1, 'nuff said. Lets have the playoffs.
