

SAFETY FIRST DURING HUNTING SEASON

The hunting season is nearly upon us and a few cautions are in order.

Every so often someone is killed or seriously injured by the discharge of a **firearm** and too often we hear the plea: " I didn't know it was loaded". When a firearm is being used for hunting every precaution should be taken by the user who should check to be certain of the condition of the weapon.

It is a well known fact that a hunter should wear brightly coloured clothes-- yet too often this is overlooked.

And never, under any circumstances, should anyone fire blindly into a clump of bushes, too many people are killed by just such negligence.

Now a word about the use of firearms in the immediate vicinity of Terrace Bay. We understand that a regulation will be posted shortly making it illegal to discharge a firearm anywhere within a radius of 2 miles from the Terrace Bay Post Office. We feel certain that everyone will appreciate the necessity for this regulation and will co-operate with the authorities to see that it is enforced.

REMEMBER WHEN HUNTING - THERE IS NO SUBSTITUTE FOR SAFETY
