

FROM THE RECORDS18 Months Ago at Terrace Bay

Five prefabricated buildings arrived at Terrace Bay (then a flagstop called Black, Ontario) to augment the two temporary buildings in use as camps. The newly arrived buildings were scheduled for use as camps, dining rooms and an office.

Engineer Jim Isbester was in charge of the project. Malcolm Spidell was assigned to the task of supervising erection of the prefab buildings.

12 Months ago at Terrace Bay

In the Townsite, concrete work on basements for 75 houses was complete..... North American Buildings had erected 24 of the 75 houses scheduled for the '46 house building program. The interior finishing of one house was complete.

At the Millsite, Pulp Storage foundation work was finished and excavation work on the Recovery Boiler foundation had started.

In the Lower Camp, a serious truck accident occurred at the C.P.R. crossing when a truck was hit by a train. Camp accommodation continued to be filled to capacity with the 358 persons who were engaged throughout the project.
