

FROM THE RECORDS

18 Months Ago At Terrace Bay

Diamond drilling, for the purpose of probing soil conditions, continued as the major undertaking of the project.

Two temporary camp buildings had been erected in the Lower Camp and work was progressing favourably on the setting up of 5 prefabricated camp buildings.

Earle Veitch (Long Lac's Personnel Dept.) arrived at Terrace Bay to help establish an office set-up.

12 Months Ago At Terrace Bay

In the Townsite, 75 house basements were completed and 28 houses had been erected while crews were going ahead with finishing carpentry work, electrical work, plumbing, heating and chimneys. Sewer work and water mains were completed on D Street (part of Laurier Avenue).

At the Millsite, the foundations of the Pulp Storage Building were complete and 1/3 rd of the steel for the building had been erected. Footings were also complete for the recovery boiler and 1/2 of the piers were in place.

In the Lower Camp, camp facilities had been expanded to the point where there was accommodation for the 393 people who were employed throughout the project. The photographer's dark room, located next to the Temporary Hospital was under construction.

MOOSE SEASON OPENS

This morning (Oct.15th) at the crack of dawn, a number of Terrace Bay nimrods were on hand in the great open spaces to greet the 1947 Moose Season which opens officially in these parts to-day. Up to the time of going to press there were no reports from successful hunters, however, only moose tracks had been sighted. The open season on deer and moose continues in this area until November 25th.

Now that hunting is in full swing we would again like to stress the need for care when hunting.

1. Wear bright coloured clothing.
2. Never be in a position where you are forced to state "I didn't know it was loaded".
3. Never fire blindly into a clump of bushes or underbrush, you may be shooting at a fellow hunter.

IT IS ILLEGAL TO DISCHARGE FIREARMS ANYWHERE WITHIN A RADIUS OF 2 MILES OF THE TERRACE BAY POST OFFICE
