

POST OFFICE NEWS (cont'd)

The Postmaster requests all box holders who have not keys for their boxes to have duplicates made. A key for the purpose will be furnished.

We would also like to remind our patrons that owing to present construction conditions we have a tremendous general delivery service to contend with, therefore, it would help us and also help to eliminate waiting at wickets if, south camp patrons would pick up their mail during the day and leave the evening for the north camp men. It is also pointed out that some patrons are calling as many as three times a day for mail. As all mail for the day is sorted by 11:00 a.m. One call a day should be sufficient.

Acting on advice from Ottawa we are instructed to announce that: "No entrance to the Post Office from the back door can be allowed." Beginning immediately, therefore, we request the public to observe the "No admittance" signs on the back doors.

HALLOW EN CELEBRATED IN GRAND FASHION

Terrace Bay youngsters of all ages crowded into the basement of the Marsh residence, Laurier Avenue, on Halloween night, following the customary "shell out". Since the party had been scheduled for 7:30 p.m. a number of homes in the Townsite were virtually unvisited but the gang did have fun at the party.

With the exception of a few disturbed wood piles (and they're such a temptation on Halloween) no vandalism was reported, due in part no doubt to the fact that the Marsh party had been organized.

At the Recreation Hall, later in the evening, the Terrace Bay Social Club sponsored a very successful Halloween Dance at which a Lakehead Orchestra "Pecks Rhythm Ramblers" supplied the music. This marked the first appearance of an organized orchestra at Terrace Bay.

By the time next Halloween rolls around, it will not be possible to get all Townsite youngsters together under one roof and a planned masquerade party for young and old would be a worthy undertaking for any organization of the community.

WEAPONS NEAR PUBLIC WORKS

We have been requested by the Terrace Bay Townsite Police Department to insert the following notice:

"It is an offence against the Criminal Code for any person to have in his possession any firearm (viz-Rifles, shotguns, revolvers, and automatics) near any public works. This applies to firearms kept in bunkhouses, warehouses and offices. The local detachment, Ontario Provincial Police will be glad to store any firearms so had at that office and will be on hand should the owner wish his gun to take out hunting or as the case may be. Kindly co-operate."

We feel sure that everyone will realize the need for the co-operation requested.
