USE OF CLEANING FLUID IN BUNKHOUSES

In the October 8th issue of "Terrace Bay News" under the heading "Fire Prevention Week", attention was drawn to the fact that inflammable cleaning fluids caused 8,000 fires last year in the United States.

Despite this caution, it has been brought to our attention that within the past week, inflammable cleaning fluid has been used in at least one bunkhouse at Terrace Bay.

We would like to note at this time that cautions included in Terrace Bay News respecting safety, fire prevention accident prevention or any other topic covered in the interests of general welfare, are written for the purpose of conveying information which will, if applied, reduce the hazards of living.

IT PAYS TO BE CAREFUL-----THE LIFE YOU SAVE MAY BE YOUR OWN.

TAXI SERVICE ESTABLISHED AT TERRACE BAY

Using Kaiser-Frazer air conditioned cars, a taxi service has been established at Terrace Bay by Andy Mallard who is well known around the LongLac and Hydro projects. The business will be known as "Andy's Taxi". Andy will make his headquarters near the Dispatchers Office and during the daytime he may be reached at Local 17.
