LONGLAC FOREMEN AND SUPERVISORS ADDRESSED BY E. V. JOHNSON

LongLac Pulp and Paper foremen and supervisors were addressed

by E. V. "Al" Johnson, Kimberly-Clark's Safety Supervisor at a meeting held Thursday afternoon July 22nd in the Staff Camp.

In his opening remarks, the speaker immediately focused attention on the evils of lost time accidents by noting that when such accidents occur, people lose wages, they suffer, and the inefficient use of manpower resulting is not good living and is not good business.

Al stressed the importance of having Quality, Safety and Quantity go hand in hand and noted that proper job instruction by foremen and supervisors put across the idea of doing the job the right way, which is always the safe way. He also stated that Kimberly-Clark management's attitude toward an overall accident prevention program was based on recognition of individual responsibility as a key factor in the success of such a program.

The speaker also outlined the advantages of safety programs being carried into the homes and throughout the community, since 83% of all accidental deaths today originate in other than industrial activities.

In introducing the speaker D. C. Porter, Mill Manager stated that "safety falls on the shoulders of all".

TENNIS COURTS NOW IN USE

Terrace Bay's new tennis courts are now a reality. After weeks of preparation and work, two clay topped courts have been completed and play commenced last week-end. The courts are located in the Townsite just south of the school area and west of the Shopping Centre.

The Terrace Bay Tennis Club was formed late last summer for the purpose of organizing tennis at Terrace Bay and interest exhibited at that time and since, warranted construction of the two courts by LongLac Pulp and Paper Company while the club purchased the necessary nets, tapes and hardware.

At a meeting of the Tennis Club executive held on Wednesday evening July 28th at the home of the President, Bob Harris it was agreed that the grounds committee of the club would assume responsibility for all general maintenance such as rolling the courts and making minor repairs to the clay surface.

The club Treasurer Jeanne McCord reported on finances and stated that fees had been paid by 34 members to date. All tennis players are urged to pay their fees to either Jeanne McCord at the North Camp Engineering Office or to Mrs. Stan Hodgkiss, 62 Laurier Avenue, in the Townsite. It should be noted that courts may be used by members only. The membership fee for couples is \$5.00, single membership is \$3.00, while the fee for children under 16 is \$1.00.

Tennis equipment may be purchased by members through the club and persons interested should contact Grace Noer or Mrs. Stan Hodgkiss.

Plans are being made by the Tennis Club for a dance which will probably be held in the Recreation Hall on Friday, October 1st.

It is hoped that a large number of the ladies in the Townsite will take advantage of the fact that during daytime hours on week days in particular, the courts are not expected to be crowded.
