GOOD FISHING Although there were no changes in the Terrace Bay Angler's Contest during the past week, literally dozens of fish have been caught in this area. One party of seven fishing out of Rosspoint last Sunday picked up 25 lake trout while another party of three fishing at Jackfish latched on to 14 lake trout.

In strictly local waters, down at Intake Bay, and along the shore of Lake Superior, some very good catches have been made. For example, Jim Gibson of Longlac's Toronto Office was up bright and early last Sunday morning and was quite pleased when he landed a nice two pounder. His second fish, a Lake Trout weighing nearly 11 lbs., really convinced him that they aren't all fish stores that have been drifting down from Terrace Bay to Toronto Office.
