LAKEHEAD BRANCH OF ENGINEERING INSTITUTE TO VISIT TERRACE BAY

Sixty-five members of the Lakehead Branch of

the Engineering Institute of Canada are expected in Terrace Bay on Saturday afternoon September 11th. Following tours of the Townsite and Mill, the visiting group will be guests at a dinner to be tendered by LongLac Pulp and Paper Company. We would like to take this opportunity of welcoming the visitors to our project and community and trust that their visit will be both pleasant and profitable.

CLIMBING WOODPILES IS DANGEROUS

Quite naturally, everyone around Terrace Bay is interested in what is going on in the woodyard, and it is interesting to note that the amount of wood now piled is nearing the half-way mark. Woodyards have their hazards, however, and anyone visiting the area should keep eyes and ears open. Climbing the woodpiles is, of course, very dangerous and since people have been seen doing it, we are taking this opportunity of bringing the matter to the attention of everyone.
