MILLSITE FIRST AID ROOM The attention of everyone in the mill area is drawn to the fact that the Millsite First Aid Room is now located at the west end of the aluminum building in which the locker room has been built. Entrance to the First Aid Room may be made through an outside door or from the main runway which links the locker rooms to the mill proper. In charge of the First Aid Room is the Plant Nurse, Miss Elizabeth Cunningham, Reg. N.

First Aid facilities are provided primarily as a service to employees who are reminded that no injury is too slight to be neglected. Even a minor scratch or sliver can become infected resulting in a loss of time, limb, or life. It doesn't pay to gamble with infection.

COAL ORDERS SHOULD BE PLACED NOW Townsite tenants are reminded that the 50¢ discount per ton on anthracite coal will continue only throughout the month of November. The price of coal per ton until December 1st is \$21.50 in full truck load lots, with the \$22.00 price going into effect at the end of the present month. Orders for fuel should be placed with Joe Heenan in the Administration Office which is now located at the Millsite. Everyone is urged to place orders now before heavy snow blocks driveways thus making deliveries difficult.
