

TURKEY DRAW AND AUCTION PLANNED FOR DECEMBER 16th A Turkey Draw and Auction will be held at Terrace Bay by St. Martin's Men's Club in the Recreation Hall on Thursday December 16th. - Turkeys for all, come and get yours. Activities will get underway at 8:00 p.m. o-o-o

CHARTERED BUS TRIP PLANNED TO LAKEHEAD ON DECEMBER 24th All those interested in obtaining accommodation on a chartered bus scheduled to leave Terrace Bay for the Lakehead at 1:00 p.m. Friday, December 24th are requested to please forward a written request to Peter Mazza at the Warehouse. Deadline has been set for Thursday, December 9th. "First come - First served" No phone calls please. o-o-o

WOMEN'S INSTITUTE CHRISTMAS PARTY The Terrace Bay Women's Institute will hold a Christmas Party in the Recreation Centre on Thursday evening December 16th at 8:00 p.m. All ladies of the community are cordially invited to attend and bring a small piece of Christmas cake and a gift costing not more than sixty cents. There will be a Christmas programme. o-o-o

CALLING EVERYONE INTERESTED IN SKATING On Sunday afternoon December 5th in the Recreation Hall, following a meeting of hockey enthusiasts, there will be a meeting of persons interested in skating and it is hoped that a good crowd will be on hand. The meeting will get underway shortly after 3:00 p.m.

The purpose of the meeting is to make plans for regular skating nights at Terrace Bay throughout the coming season, and the extent of the program will depend a great deal on the number attending the meeting and the interest exhibited.

If there is sufficient interest it should be possible to promote regular skating parties WITH MUSIC. Such a group might also be interested in promoting Moccasin Dances.

At the meeting, representatives will be chosen to act on a "Rink Committee" which will consist of representation from all groups interested in the use of Terrace Bay ice facilities. Let's have a good crowd of skaters on hand to "talk things over". o-o-o

SEASONAL PRECAUTIONS During this particular season of the year, we are all confronted with ice, snow and icicle hazards, and in many cases serious accidents can be averted by sensible precautions.

The best method of dealing with ice and snow slipping hazards is to remove the snow or slush before it forms into ice.

In areas where this is not practical, however, a good method of dealing with the problem is to spread gritty materials such as sand, gravel or fine cinders over slippery surfaces thereby making them skid-proof. This applies around the home as elsewhere.

Icicles are dangerous at any time in fact they have the peculiar habit of growing in places where they are dangerous in spite of practical efforts to prevent them. When they do form they should be removed, especially at doorways. When removing icicles care should be taken to guard against injury from falling ice.

Winter driving is always more hazardous than driving during other seasons of the year and while we can't regulate the weather, we can regulate our driving. A clear windshield, and chains, can prevent accidents when it is sleeting or snowing.

Seasonal precautions are important at this time of year to eliminate hazards and reduce accidents. An ounce of prevention is still worth a pound of cure. o-o-o
