COMMUNITY RECREATION PROGRAM PLANS DEVELOPING The Provisional Committee which was established at a general meeting on Thursday evening, February 24th, to study plans for a Community Recreation Program met last Friday evening, March 4th, in the Community Hall. At this meeting C. E. "Monty" Paget was elected Chairman, and Mrs. R. M. Schneble was elected Secretary. A considerable amount of time was spent discussing an outline for a Constitution and a Constitution Committee consisting of Jack Wellings, Ruth Bangart, Angus Bryans and Ralph Shemanski was established. This Committee met Tuesday evening, March 8th, and began to draft the actual Constitution, which will probably be completed at a second meeting of the Constitution Committee scheduled for Monday evening, March 14th. Present plans call for a second meeting of the Provisional Committee on March 15th for the purpose of making a study of the Constitution as drafted by the Constitution Committee. At that time the Provisional Committee will then decide the date on which the next general meeting will be held. This date has tentatively been set for Thursday, March 24th. Provisional Committee members are hopeful that a large representation from residents of the community will attend the general meeting, at which the Constitution will be submitted for ratification and further plans laid for the expansion of Terrace Bay's recreation program.

Stothers, Inspector of Special Schools and Classes, Department of Education, Toronto. During his remarks, Dr. Stothers emphasized the advantages to both pupils and teachers of a modern school with the latest improvements in lighting and design, and commended Clarence Smith, the principal, and his staff, for the good work which was so evident in the classroom displays. Dr. Stothers was introduced by the Inspector of Public Schools for the District, W. J. Judd of Port Arthur, who also spoke briefly. Chairman of the proceedings was H. C. Laundry, Terrace Bay School Board Chairman.

Following the brief ceremony, the large number of parents and residents of the community who were present visited the classrooms and saw evidence of the work being accomplished by pupils of all grades.
