In the above contest standings it will be noted that the LongLac mill is 9th out of 22 Ontario mills competing. At the end of January, we were in 19th position. In our effort to make our mill the "Safest Mill in Canada", we must first become the "Safest Mill in Ontario". That means heading the list in Class "A" in the Safety Association Contest and on this objective we should set our sights. We can reach our objective if each one of us works safely. That means being constantly on the alert.

SAFETY SLOGAN CONTEST Last week, Fred Vantour, Low Pressure Boiler Man, missed \$15.00 when he was unable to recite the slogan "The Safe Worker Is No Sissy, He's Just Plain Smart". Too bad Fred, better luck next time.

As we go to press, the results of this week's contest have not been decided, but \$20.00 is the prize if the person approached knows the slogan "It Doesn't Pay To Take Chances".
