LET'S TRY AGAIN A lost-time accident in the Wood Room on August 2nd brought to an end a record of 30 consecutive days or 108,000 man hours worked by LongLac employees without a disabling injury. We had passed the half-way mark toward a 200,000 man hour objective which had been set. Let's start in again with a firm belief that safety really pays and individually do everything within our power to work safely and achieve our objective.
