## Terrace Bay Residents to Consider Bowling Alley Proposals

As indicated in this paper last week, a special meeting of all Terrace Bay residents will be held on Thursday evening September 1st in the Community Hall at 7:30 p.m.

At the meeting, a proposal will be presented by the Community Recreation Committee which, if adopted, will assure bowling alleys at Terrace Bay by early October.

The principle decision to be reached concerns financing the \$10,000 project over a 3-year period with alleys being paid for from current profits. A careful appraisal of anticipated revenue indicates that such obligations could be met.

All relative facts will be presented for consideration at the Thursday evening meeting and a good representative of local residents is urged.
