EVERYONE HAS SOMETHING TO SAVE FOR As on previous occasions, employees of LongLac Pulp and Paper Company will again have the opportunity of purchasing Canada Savings Bonds either by cash or payroll deduction when they go on sale across Canada next month.

The Payroll Savings Plan is simple! Applications for bonds will be financed at the coupon rate of interest for up to a 12 month period with payments monthly or semi-monthly.

Everyone has something to save for and the best way to save is on a regular basis. That is why so many Canadians have made it a practice of buying Savings Bonds on a payroll deduction basis. Think it over and when you are contacted by a fellow employee buy all the bonds you can afford.

FIRE PREVENTION WEEK - OCTOBER 9 - 15TH For some 30 years the Governor General of Canada and the President of the United States have designated a week in October to be known as Fire Prevention Week which this year is from October 9th to 15th.

Last year in Ontario alone, property valued at more than twenty million dollars was destroyed by fire and while much of the increase is due to increased price of building and building materials the figure is the highest on record. Deaths caused by fire in the Province also reached an all time high of 139.

And so it becomes increasingly evident that greater effort must be expended by those responsible for fire prevention measures to bring home to every resident of every community the need for greater care in the prevention of fires.

Plans are being made now for Fire Prevention Week at Terrace Bay.
