

On occasion of this milestone of 100 safe days being passed here in Terrace Bay, congratulations have been flowing in from all quarters. As this accomplishment is due to the fact that all employees are co-operating on this safety programme, we are publishing some of these messages which have been received. After all, they are addressed to you.

Mr. D. C. Porter, Mill Manager.

Heartiest congratulations on completion of 100 accident free days. Safe production benefits everyone.

H. G. Boon, Vice-President, Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

Understand today is 100th anniversary of safe days by all personnel at LongLac Pulp and Paper Co. Mill. Good luck for continuation of fine program. Effort to prevent accidents means much when it postpones any suffering that comes from injuries. Congratulations.

W. R. Kellet, General Superintendent, Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

Very pleased to note that during first year the people of LongLac Mill have completed 100 consecutive safe days of operation. This kind of effort by everyone can result in title of "safest pulp and paper mill in Canada" going to Terrace Bay which means very few injuries. Congratulations.

C. W. Nelson, Vice-President, Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

The completion of 100 safe days means that all employees and members of families are sincerely interested in preventing accidents. My compliments to you and everyone concerned for the fine job of stopping injuries. Carry on with same spirit as shown during the first year of operations.

F. S. Seaborne, Chief Mill Manager, Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

We in the manufacturing department are obviously happy to learn of your splendid safety record of the last 100 days. We hope that at the end of another 100 day period, we may be able to repeat a message of this type.

W. H. Swanson, Director of Manufacturing, Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

May I congratulate you and all the workers at Terrace Bay Mill in achieving the wonderful safety record you have just made. It is all the more remarkable because it was accomplished in so short a time after the start-up. May I wish you continued success in the safe operation of the mill.

H. S. Craig, Director of Service Operations in Canada,

Kimberly-Clark Corp.

Mr. D. C. Porter, Mill Manager.

My sincere congratulations to every member of the LongLac Mill. 100 straight days without a disabling injury will add up to a better living for all including the families concerned. Keep old man accident with his injuries away from your community. Safe thinking is a good habit. Best wishes for continued safety into the Mill's second year of operation.

E. V. Johnson, Safety Supervisor, Kimberly-Clark Corp.
