"IS THE MILL STILL SAFE?" This is the question one hears many times around the community and as we go to press, LongLac employees have now completed 108 consecutive days without a disabling lost-time accident. This adds up to more than 388,800 man hours. One major objective remains for us to achieve during this our first calendar year of operation and that is the completion of "A HALF-MILLION SAFE MAN HOURS." This objective can be reached by December 30th.
