CHRISTMAS MESSAGE FROM THE FIRE CHIEF

The officers of this Dominion Association of Fire Chiefs are greatly concerned with the problem of Pyroxylin Plastic and Nitrocellulose Toys and Novelties manufactured in Occupied Japan, and now being offered for sale on the Canadian Retail Market. This merchandise is highly flammable and all Fire Officers are warned to be on guard against this Hazard. A lighted cigarette will easily ignite them. The President has appealed to the Federal Government to prohibit the importation and sale of this dangerous Hazard. The above is not to be confused with those of English or Canadian manufacture which are not considered hazardous.
