

MEAL HOURS (NORTH CAMP CAFETERIA) FOR CHRISTMAS AND NEW YEAR'S DAYS

Breakfast - Usual times.

Dinner - For Christmas the cafeteria line will be dispensed with and plate service will be used. The meal will commence at 12:30 sharp and it will be appreciated if everyone will be in the dining room by 12:25 at the latest so that all will be served a hot meal.

Supper - Following the usual custom, the evening meal will be a buffet supper in order to give the cooking staff a little extra time off during these two days. The cafeteria will open at 5:00 p.m.

NO VACATION FOR COMMON SENSE OVER THE HOLIDAY SEASON

It seems almost a pity to talk of precautions for holidays. We all like to draw a long breath on holidays, with the feeling that we are all free to do "just as we please". Rules are well enough for ordinary days, but when the long expected time has really come, may we not at last find ourselves at liberty.

Perhaps you have asked this question a little rebelliously, and the answer is that you may feel free about many things but not about fire. Natural laws never take a vacation and fire burns as fiercely upon holidays as at any other time. Many a joyous day has ended in pain and sadness for the very reason that people have felt so free from restraint that they forgot to be careful.

Of all the days of the year, Christmas is probably the greatest favourite and yet it too has a terrible record of unnecessary fires.

Disposal of loose paper and wrappings should be effected immediately in a metal can or barrel with a metal cover. It is hazardous to leave loose paper around. It is dangerous to burn them in large quantities in a furnace.

Children are the usual victims. They need supervision when temptation is present and every precaution should be taken to make sure they do not have their own garments or toys involved in fire.

Let us ring Christmas bells, not fire bells this Christmas.

Terrace Bay Fire Department.
