

SURVEY (cont'd from page 4)

"Chuck" Haviland is a little different (he won't be for long) and says, "I like long hair and long skirts." His motto "Keep 'em well covered."

Another fellow says, "Oh gosh, I'll take them anyway they come."

Another answer was, "Just depends on the chick, some look pretty awful in short skirts."

And this was the one that took the cake:

"Ugh, if they're anything like your legs, I suggest that they be wrapped in potato sacks."

The girls took some insults as well as compliments but you sure can't please everybody.

BOILER HOUSE BLUES

Sing me a song of the Steam Plant boys,
Sing a little ditty of the boiler house joys,
Water level's fine and coal's level too,
So relax for a minute and I'll harmonize with
you.

Refrain:

Oh black liquor, green liquor, force draft
fan,
Pushed the feeder button and the pulverizer
ran,
Surge tank, smelt tank, secondary air,
Feed pump's down and the grates are bare.

Blowback, flashback, positive draft,
Power failure and the shifter laughed,
Turbine, steam line, voltage regulator
And the second helper fell in the ole
precipitator.

Air heater, water heater, economizer too,
The coal is frozen and the fire is up the flue
Instrument air and explosion doors,
Pressure down to zero and the helper sweep-
ing floors.

If you're looking for a target, well don't
shoot the chief,
For he certainly experiences his own share
of grief,
It's a heck of a life when you think hard
about it,
But you wouldn't give it up and you couldn't
live without it.

Submitted by E. Cairns,
Steam Department.

Let's Do Our Best !!

At the main entrance to the mill, a sign is now being erected which will carry the score in the 10-mill Safety Contest sponsored by the Northwestern Branch of the Ontario Pulp and Paper Makers' Safety Association. At the completion of the first month of the contest which is to last for a 6-month period, we were in first position, but due to an accident in August, we will probably find ourselves displaced. Be that as it may, the contest still has more than 3½ months to go and an accident-free experience from now until the end of the year could put us back in top position in line for the trophy which will go to the mill with the best experience based on Limited Severity, (the actual number of working days lost due to lost-time disabling injuries, with a maximum time charge of 26 days for any one mishap).

And while we are on the subject of Safety Contests, let's bear in mind the fact that the next Mill-wide Safety Contest pay-day will be October 1st. If every unit continues to work safely until the end of this month, as they are now doing,
