### NEXT WEEK'S SAFETY SLOGAN

9:00 a.m. October 9th to 9:00 a.m. October 16th

"LET'S HAVE AN ACCIDENT-FREE OCTOBER"

What with many items on the entertainment agenda last week, some of the games were forced into postponement. It must be remembered that teams unable to have bowled at scheduled time must have these games bowled by Saturday, October 7th. After this, there will be no postponed games, and those teams unable to meet with the schedule due to shift work must have their games in advance.

In the Ladies League, seven teams are already entered. An eighth team would serve the schedule better. Should any ladies care to take up bowling, the chairman, Mrs. Vi Wainikka, would be glad to arrange placement. This must be done before Tuesday, October 10th, as Ladies bowling will commence the week of October 16th.

The Commercial League consisting of four teams begins this week.

There has been some good scoring in the Men's and Mixed Leagues. This is an indication that all previous bowling records will be shattered.

All bowlers welcome the news that Leon and Anne are happier parents. Their recent addition should relieve the pin sitters problem in the next few years.

Last week, Harry Coe of Technical "scored" when questioned by Bill Borsum and Fred Soughton. Knowing the slogan meant a cool \$20.00. Congratulations!
