

LONGLAC - SPRUCE FALLS 1950 SAFETY CONTEST

MILL	Ontario Standards		National Safety Council Standards	
	Accidents	Frequency Rate	Accidents	Frequency Rate
LONGLAC	10	7.39	8	5.91
SPRUCE FALLS	29	8.26	28	7.99

Herewith is an exchange of teletypes between Kap and Terrace Bay on January 2/51.

D. C. Porter:

Congratulations on your victory in our inter-mill safety contest for 1950. Our goal for 1951 is to beat a frequency of 5 and this year we think we can trim you so are challenging you again.

G. M. Minard.

G. M. Minard:

Thanks for your congratulatory message. We accept your challenge and are aiming for a frequency of 4.5 or lower so you can readily see what we think.

D. C. Porter.

The 1951 Contest will be based on National Safety Council Standards.

BETTY CRUICKSHANK LEAVES

Tomorrow will be the last day of work for our friendly and competent Plant Nurse Betty Cruikshank (nee Cunningham) who has resigned to take up housekeeping duties on a full-time basis. Betty has been the custodian of iodine and band-aid emporium since it first opened some time ago. Betty's smiling face, sense of humour and ready laugh will be missed by all of us who had occasion to drop into the First Aid room. She will be ably replaced by Phyllis Woods (nee Birt) who has relieved Betty from time to time during the past year or so.

THE VANIERS LEAVE TERRACE BAY

It is with a great deal of reluctance that we say Au Revoir to Sylvette and Fairfield Vanier who will be leaving us in a day or so for the West Coast. During their stay in our Community they have made themselves known to us through their untiring efforts to do their bit to help with the organization of various projects in the Town. Although their efforts were confined mostly to the work involved in the Canadian Legion, Mrs. Vanier served as Treasurer of the Ladies Auxilliary while Fairfield had just been elected to the post of President of the Senior Branch for 1951, their help was felt in other groups around town. "Van" had contributed a great deal of time to the formation of the local Credit Union and the spot that he leaves vacant that will be most difficult to fill will be in his worthy contributions to the "News" and "Co-operation".

The "News" joins with the rest of their friends in wishing this couple lots of luck and success in their new community.

o-0-o

The Terrace Bay Fire Department wishes to thank all residents of the Townsite, North Camp and Hotel for their co-operation in preventing fires over the Christmas and New Year Holidays.

It is very gratifying to know that our citizens are willing to co-operate when called upon, and we trust that the fires for 1951 will be few and far between.
