Mr. D. C. Porter, Mill Manager,
LongLac Pulp & Paper Company, Ltd.,
Terrace Bay, Ontario.

Dear Don:

It is with regret that I am unable to attend your 100 Days Safety Party next Wednesday.

It is obvious that every individual is interested in preventing injuries. A genuine feeling that each person is a fellow-worker exists when a mill carries on with a minimum number of injuries. The teamwork shows a final score of "No One Hurt." Such a final score is worthy of all efforts.

The program at your mill is now being recognized with some of the better than average programs throughout the industry. I understand that the goal for 1951 is a frequency rate of 4.5. This is a definite challenge!

Good Luck -- Good Party -- Good Safety!

Sincerely,

(Signed) W. R. Kellet,
General Superintendent,
Kimberly-Clark Corporation.

Mr. D. C. Porter, Mill Manager,
LongLac Pulp & Paper Company,
Terrace Bay, Ontario.

Dear Don:

Days, weeks and months without accidents are always pleasant for everyone and are made possible only by the united efforts of all. Everyone recognizes that the reduction of injuries you made between 1949 and '50, both in numbers and severity, as well as completely preventing all accidents for 100 days is a great accomplishment.

I am sorry to miss your party next Wednesday as I'm sure it will be a very enjoyable affair and an incentive to further effort.

Please extend to everyone my congratulations and sincere best wishes for continued success in safety.

Yours truly,

(Signed) Fred Seaborne,
Chief Mill Manager,
Kimberly-Clark Corporation.
