But we are not going **to** say too much as yet for we feel that **what** is coming is much better as a surprise. NEW PRODUCTION RECORD IS SET

A hearty pat on the back to each and every LongLac employee who contributed in some way in establishing a brand new record. Our former record of 370.4 tons was made on August 20, 1950. With a record of 380.37 tons set on January 27, 1951, we have a greater challenge than ever. To quote "Commander" Gord Rowlandson of the Pulp Brigade, "It won't be the permanent record" we may rest assured that such confidence will be rewarded by renewed determination and effort by all. Again, Congratulations!!
