

HOCKEY

The "Rockets" will journey into Schreiber tonight to take on the "Deisels" at 8:00 p.m. This is the last time that these teams will be seen in action prior to the play-offs which are slated to get under way during the week of Feb. 12th. Marathon "Mercurys" made the tough "road trip" last week-end, taking on Schreiber on Saturday night and Terrace Bay on Sunday afternoon to take home 3 points out of a possible 4 to almost consolidate themselves in first place. The "Deisels" go to Marathon this coming week-end for games with Marathon and White River. Should they cop both of these games they will be the first place team. In any event, whichever team ends up in 2nd place will meet Terrace Bay in a best of three series, winner to meet the first place team for the Championship.

As we go to press, we are informed that the Hockey Executive are endeavouring to complete arrangements whereby the Port Arthur Eagles will come here to engage the Rockets this week-end. No guarantee has been received yet that they will be here, however, as soon as confirmation has been received notices will be posted on the Recreation Board in the Mill and on the board outside the Post Office.

Fresh from their victory over the Office team last Friday, the boys from the Machine Shop have been challenged by the Machine Room gang to a game of real "scrub shinny" in the Schreiber Arena at 9:00 p.m. on Friday, February 9th. Line-ups for the teams are as follows:

Machine Room - A. (The Pres.) Chisholm; T. (Humphrey) Zwaresh; H. (Ashes) McCanna; J. (Shovel) Diduch; D. (Lofty) Gow; D. (Blackas) Knight; L. (Big Chief) Sernesky; K. (Model A) McLeod; J. (Rub Down) Schritt; P. (The Pup) Pluto; C. (Trucker) Chicorli; A. (Snap) Cadieux; R. (Hard Head) Beaulieu.

Machine Shop - J. (Eagle Eye) Falzetta; J. (Flash) Parent; B. (Hammer Head) Sernesky; N. (Snips) Allen; R. (Speed) Belliveau; J. (Skinner) Delaronde; M. (Woody) Craig; J. (Hi Ball) Mikus; J. (Splash) Cumming; H. (Steamer) Hamilton; P. (Shocky) Stewart; E. (Hard Rock) Pineault; G. (Erl) Royales; B. (Fatso) Sadowick; Homer Howe; Roland Stortini; Coach - J. Gross; Manager - Scotty Corrigan; Team Referee - Slim (Goatee) Dorman.

BEWARE OF CHIMNEY FIRES (Cont'd. from P.1)

Most chimney fires are caused by an accumulation of soot, constantly burning pine or other kinds of resinous wood in furnaces, which coats the inside of the chimney with tar and other residue forming on the inside like cement, until the opening is completely or nearly closed. Then a hot fire with open draught will cause the chimney to burn.

This kind of a fire burns with great heat, driving smoke through any crack in the mortar, afterwards causing the chimney to crack and heating the plaster to the point of combustion from top to bottom of the house. A clean chimney never burns, but the chimney so described is hard to clean as the pitch and tar is coated on and will not respond to ordinary cleaning tools. The best method to extinguish a chimney fire is to completely close all draughts and stand by. If the fire still burns, use a chemical extinguisher. If one is not sufficient, use two or more, discharging them from the bottom so that the carbon dioxide gas which forms when a soda and acid extinguisher is discharged will be carried upward with the draught and so smother the fire.
