

MARVELOUS RECORD

We quote herewith from a recent editorial which appeared in the Fort William Times Journal.

"The ability of Terrace Bay people to avoid accidents is drawing increasing attention both in Canada and the United States. As of this week, the employees of LongLac Pulp and Paper Company are piling up a new record more than 130 days without a single accident. The performance brought the following comment from D. C. Porter, mill manager:

"The most important thing about the new record is the fact that not since early January has any LongLac employee suffered an on-the-job injury resulting in lost time based on National Safety Council Standards. During this period, our people have worked almost half a million man hours, and this is an achievement of which everyone may be proud."

Now the men have set up an objective of a million safe man hours! What an ambitious crowd inhabits this Northwestern Ontario town."

Very sad news has just been received that Rupert Clowes passed away on Wednesday, June 6th of a heart attack, in Coosa River, Alabama. All of the many good friends that Rupert made while he was in Terrace Bay as Office Superintendent during construction days, will be sorry to learn of this untimely death.

Wears on his face a frown
For he has just discovered
His first pair of pants were down.

The three-year-old and his father were being pushed toward the rear of a rapidly filling elevator. A kindly woman turned to the father and said, "Aren't you afraid your little boy will be crushed?"

"Not a chance, madam," answered the father. "He bites."
