

TERRACE BAY HOOK'N SLICE CLINIC

It certainly has been gratifying to see the growing number of our citizens who are availing themselves of the Golf Range, especially those who "claim" they have never had a golf club in their hands before. The beginners are finding out in a hurry that socking the old golf ball is a lot of fun - and these beginners are some of the most steady customers now.

Those of you who haven't come out as yet because you are afraid of "whiffing" in front of the crowd have nothing to fear - you'll find that the fellow on the tee beside you is probably in the same category. Strange as it may seem, some of our longest hitters now were beginners only a couple of weeks ago, so come on out and, who knows, you, too, may be a "natural".

Ladies, we would sure like to see more of you down at the Range during the daytime. The few who have been down have had a lot of fun and if you can tear yourselves away from the old daily routine, you'll find that the Golf Range will brighten up an otherwise dull day. It was primarily for you ladies that we decided to open the Range daily at 1 p.m., so won't you take a stroll down soon?

The housewife was interviewing an applicant for a job in her household. "Do you know how to serve company?" she asked.

"Yes, mum," replied the applicant, "both ways."

"What do you mean, both ways?" inquired the housewife.

"So's they'll come again or stay away."
