

SWIMMING POOL OPENS SATURDAY

Our vastly improved swimming facilities will officially open on Saturday at 10:00 a.m. Some very worthwhile changes and alterations have been made to make this popular summer pastime more enjoyable for our residents. We now have 3 pools in one with an area of shallow water for beginners with a maximum depth of $2\frac{1}{2}$ to 3 feet. An advanced area of $2\frac{1}{2}$ to approximately 20 feet in depth for the more advanced swimmer and a larger area with depths from zero to approximately 20 feet, complete with two diving boards for the more advanced. All of this is enclosed by heavy, walking-type rafts which are four feet wide. More of the area has been cleared so as to provide added bench and playing space and some equipment is being installed for the kiddies. The change-house has been moved to a better location and it is to receive a face lifting shortly. A few dabs of a paint brush here and there have helped to give the general area a cleaner look.

Along the same lines as last year, classes will be conducted on Monday, Wednesday and Friday mornings for those wishing to take swimming lessons. Through the courtesy of the Company, the bus will be available on those mornings to transport the children and parents from the Townsite to the pool, free of charge. The bus schedule is as follows: starts to do the regular Townsite trip at 9:30 a.m. and arrives at the pool at approximately 9:45 a.m. Leaves the pool at 11:30 a.m. and completes trip around the Townsite at 11:45 a.m. All persons who intend to make use of this bus service are asked to please note that the driver will leave sharp on the times noted as he has other duties to perform and must maintain a rigid schedule. So please be ready to board the bus at the designated times and avoid disappointment and a long walk.

We are very fortunate in having Eric Siiling with us again this summer as Life Guard and Instructor and for the benefit of those adults who would like to learn to swim or dive and can't get to the morning sessions, Eric wants you to feel free to ask him for help at any time he is on duty at the pool. There has been a slight change in the hours over last year and your co-operation is requested in observing this schedule very closely. Mondays through Saturdays the hours are from 10:00 a.m. until 5:00 p.m. and from 7:00 p.m. until 8:00 p.m. in the evenings. On Sundays the pool will be supervised from 1:00 till 5:00 p.m. only. PLEASE swim only when the lifeguard is on duty!

TERRACE BAY HOOK'N SLICE CLINIC

With the addition of another 20 dozen new golf balls and a couple of new drivers, the Golf Range is now able to offer us folks even better service than before.

It seems one of our "power drivers" has set a mark of 240 yards for all and sundry to beat, so come on out and try and better it - if you can. That big "250" marker hasn't been touched yet - who's going to be first?

Of course the majority of the people coming out are still trying to hit "150" - and they are getting just as big a kick out of the Range as anyone.

If you haven't taken advantage of the Golf Range yet, come on out - you'll have fun, we can promise you.

Don't forget, you don't need your own clubs, they are supplied free of charge and a big pail of balls for only two bits.

NEW SERVICE IN THE MILL

A soft drink vending machine has been installed in the Mill adjacent to the Tour Foremen's office. This machine was installed by Dominion Catering Co., and is being serviced by them. They will have a bottle refund from 3:00 - 4:00 p.m. daily, except Sundays, at the same location.
