Dominion Catering:- A. Roussel - Capt., E. Desrosiers, Betty Jour, Doris Wheeler, P. Maleshewski.

Mixed League

Schemers:- G. Paget - Capt., O. Harrison, Mrs. G. Paget, S. Valigrosky, C. Haviland.

Men's League

Well, it really happened --- Last year the Overheads beat the Kakabeka team by 3 pins to win the championship of the men's league.

Well, --- Maurstad, Captain of last year's Kakabeka team, had sweet revenge by beating the Overheads by only two pins.

(With a pick-up team.)

Capt. B. Borsum of the Overheads, who
(cont. in next column)

doesn't miss a good bet had a "ringer", H. Harker from Neenah who really did well only to be let down by the locals.

Kakabekas:- J. Maurstad - Capt., W. Adamo, E. Oleksyk, T. Williscroft, C. Buck.

Overheads:- B. Borsum - Capt., H. Harker, R. Shirriff, G. Rowlandson, J. Wig.

Leon advises that the 10-Pin measuring ball has arrived and he will be pleased to get you fixed up just as soon as you go and see him. It has also been learned that these new 10-Pin balls can be purchased on the installment plan.

A reminder to the public --- the alleys will be open at 7 every nite except Sundays. Get up a party and have fun - exercise - and practise.

AN UNBEATABLE TEAM

The foreman and the worker could be an unbeatable team in the battle against accidents. The foreman with his experience as a workman and his training for a supervisory job is qualified to lead, observe, and train men in safe and effective work practices. The workman, with his knowledge of the job through first-hand contact is in a position where he can apply the things he has learned from experience.

Mutual respect and confidence and most of all co-operation, can make an outstanding team of a worker and a foreman. Both have the same objectives, and only by combining forces can they achieve their final goal... "QUALITY PRODUCTION WITH SAFETY".

PLACE YOUR FUEL ORDERS NOW

A request has been received from Terrace Bay Enterprises to have all of those Townsite residents, who intend to do so, to place their coal and Prest-o-log orders with them now. This request has been made for several reasons, some of them being so that Enterprises can get their orders in to the suppliers early so that the saving on summer prices can be carried on to the consumer and so that deliveries can be made to the houses prior to a snowfall as some of the coal bins may be harder to get at this winter due to back-yard fences now being erected. Your prompt attention to this would be greatly appreciated.

Husband: "It's all right. Nothing will burn--I forgot to turn off the water in the bathtub."
