NEWS

Volume 6, No. 40

LARGEST CIRCULATION IN TERRACE BAY

October 4, 1951.

IS POACHING FAIR?

It is no secret that a fair amount of poaching is going on in the vicinity of Terrace Bay, and in this respect (while this message is not intended to be aimed at any persons in particular) the attention of all would-be sportsmen is drawn to the fact that the Partridge season does not open until October 6th. It is acknowledged that the season opened on Hungarian Partridge on September 17th, and that this might have caused a slight amount of confusion, but to use the alibi that one species could be mistaken for the other is a rather lame one, inasmuch as the Hungarian Partridge is almost unknown in this district.

The members of our local Fish and Game Club are, in essence, volunteer game wardens and should do as much as they possibly can to discourage this type of practice, however, they can't be everywhere. In addition to being a very unsportmanlike act, poaching is against the Law!

LET'S BE CONSERVATION MINDED

o-o-o

DISCHARGING OF FIREARMS

The attention of all concerned is directed to the Improvement District By-Law that states that firearms must not be discharged within 2 miles of the Townsite of Terrace Bay. Penalties are provided for violation of this By-Law.

PULPWOOD NOT FIREWOOD

Several complaints have been received lately on the matter of some of our residents gathering pulpwood along the shore of Lake Superior to be used as winter fuel. It is brought to the attention of all concerned that it is against the law to pick up this pulpwood as it is the property of the Pulpwood Salvage Association.
