LARGEST CIRCULATION IN TERRACE BAY

November 22nd, 1951.

ST. MARTIN'S STAG

What a chance the men of the community will have to discuss the outcome of the election on this Tuesday evening coming up!! That's the night for the Stag Party to be held in the Recreation Hall from 9 PM to 2:00 AM. And if you're not interested in politics, then you can just relax with 12 fl. ozs., munch a "koobisaw" sandwich and ridicule your old cronies, who are going to be wandering around the hall looking for a quiet game of "Draw". It's a real treat to get out and get caught up on all the town doings, chitchat and what-have-you. Tickets are now on sale at \$1.25 each - come early, stay late and enjoy yourself. It may be the last free evening you'll have to yourself with the busy Xmas season coming up.

A PAT ON THE BACK

Everyone who participated and particularly those who acted as canvassers will be interested in the "bouquet" handed out in his final report by R.M. Bird, Divisional Organizer for Superior Division in the recently concluded Canada Savings Loan Campaign. Part of the report reads as follows:

"In these lists" (which include industrial operations throughout Northwestern Ontario from Marathon to the Manitoba border) "we find four companies that qualify both in percentage of employees participating and in far better than average size of applications. That they may be singled out for excellence of campaign, I am pleased to list them as follows:

- Great Lakes Paper Co. - Fort William
- LongLac Pulp & Paper Co. - Terrace Bay
- Ontario-Minnesota Paper Co. - Fort Frances
- Steep Rock Iron Mines - Atikoken"

CURLING CLUB NEWS:

Plans are rapidly progressing into realization as the Curling Club prepares for its 1951-52 season.

The Membership and Draw Committee reports a total of 65 applications on file, with a number of last year's curlers yet to be heard from. Thus far, 48 old members have returned and 17 newcomers have asked to be included in this season's roster. The club lost only five people who left Terrace Bay during the past year, leaving about a dozen more yet to sign up. This should give us around eighty curlers which will be about the right number for the ice available.

President Thor Olsen reports good progress on renovating the new club house, and wishes to thank everyone who have given so willingly of their time to help put it in shape. This should place the club in a position to enjoy a really fine sociable season.

There will be another big work bee on the club house this Friday evening, starting at 7 PM. ALL CURLERS are requested to be on hand to give the project another big push at that time.

How's the ice? The committee under Rune Ostling is working steadily at it as the weather permits. If cold weather sets in and holds, we'll have the ice ready for business in about ten days.

Get ready, curlers, the first rocks will be thrown very soon!!
