A FEW WORDS ON BLUE CROSS BENEFITS

The subscriber benefits are now greater than ever before--the following are available to subscribers and enrolled dependants in accordance with the terms and conditions of enrolment:

51 days of hospital care in a contract year for the subscriber - 51 days for wife - 51 days for each child under 18 years of age.

PLUS TEN additional days for each year of continuous participation of subscriber or dependant in the Plan, up to a maximum of TWO HUNDRED AND ONE DAYS, making total days for each person enrolled, as follows:

61 days - 2nd year      81 days - 4th year  
71 days - 3rd year      91 days - 5th year  
and so on....to a maximum of 201 days.

N.B. - Hospitalization is also provided for tuberculosis, nervous and mental diseases and for admissions for chronic diseases, up to a total of 51 days in all, regardless of the length of time contract has been in force.

A short hospital stay CAN be costly.

Blue Cross 'service' benefits mean that payment to participating hospital at prevailing rates is provided in accordance with the services you receive. You are not limited to a maximum daily cash amount which is often insufficient to cover your expenses.

You can take it with you.

If you should change your employment, retire, or are laid off, you may keep your Blue Cross protection in good standing and safeguard your investment by transferring, without loss of benefits, to your new place of employment or, if that is not possible, by paying directly to Blue Cross at a slightly increased rate. This means that you have PROTECTION WHEN YOU NEED IT MOST!

Wife: "What lovely fleecy clouds! I'd like to be up there right in the middle of one of them."

Husband: "All right. You drive the car."

---

It requires hundreds of nuts to hold a motor car together and only one to knock it apart.

---

Legally the husband is the head of the house and the pedestrian has the right of way. Both husband and pedestrian are fairly safe unless they try to exercise their rights.
