

JULY FIRST EVENTS BEING STAGED BY
RECREATION COMMITTEE & SOFTBALL CLUB

(cont. from page 1)

<u>Age</u>	<u>Girls</u>	<u>Boys</u>
16 & over	75 yd. Dash	75 yd. Dash
	High Jump	High Jump
	Ball Throw	Broad Jump

Some swell prizes have been lined up for these events. A complete time schedule will be available at the South Camp Ball Park on Tuesday morning.

The Softball Club comes back into the picture again when the local ladies' team will take on the Bryan's team from Fort William. This game will get underway at 2:30 p.m. and will be played at the School Diamond. The ladies have been practising regularly for this event and should be a thrill packed, exciting contest.

To round out the day's programme, an All-Star team from the Day Workers' Section will oppose a star-studded squad from the Shift Workers' Section of the House League in a battle that promises to be the biggest game of the season. This game will get underway at 6:30 p.m. at the School grounds. Come out and see such stars as Ed (Home plate belongs to me) Brady, Al (Running Wild) Lindskoog, Frank (Whiffer) Whitfield, Alf (The Arm) Adrian, John (Casey) Cavanaugh, and a host of others. The game will not be televised this year, so you had better get dinner over with early so as not to miss this sparkling event.

Two other special features of this programme will be the appearance of members of the Bryan's team at the Dance on Monday night, and the selling of Pop, etc., at the morning, afternoon and evening events by the local Boy Scout troop.

ATTENTION RESIDENTS

It has been noted lately that some of us are being very careless about the manner in which we walk up and down the Highway and the roads in the Townsite. You are reminded that the safest and most conventional method is to walk facing the oncoming traffic.

Remember, your personal safety is your own responsibility. Don't expect the truck and car drivers to be mind readers.

CARD OF THANKS

I would like to thank all those who sent me cards etc. during my stay in the hospital.

FREE WEEKLY FILM SHOWINGS

Through the courtesy of the National Film Board, and sponsorship of the St. Martin's Club, there will be weekly film showings each Sunday evening commencing with this Sunday, June 29th at 8:00 p.m. This week's film will be shown in the basement of St. Martin's Church.

The films to be shown are:

1. Sing with the Commodores
2. Red Runs the Fraser
3. Newfoundland Scene

Each programme runs approximately an hour to an hour and a half and the films, in general, deal with Canadian entertainment, scenes and events. For those of us who may wish to see more of our country in relative comfort, this is an opportunity that shouldn't be missed. High school students particularly, should avail themselves of these weekly films.

There is no charge for these movies outside of a silver collection to be made during the programme. The date - Sunday, June 29th at 8:00 p.m. in the basement of St. Martin's Church.

EVERYONE SHOULD BE CAREFUL ALL THE TIME

Two accidents have come to our attention that bear publicity.

One of these was the drowning of a 17 year old who attempted to retrieve an inflated inner tube that was being blown out into the lake by the wind. Pursuing light objects such as inner tubes, beach balls and unanchored and unoccupied boats has caused the death of many good swimmers. There is a tantalizing nearness of these objectives that spurs the swimmer to greater than normal speed and so to rapid fatigue. Often the speed of these objects is much greater than people realize, and before this fact is appreciated by a swimmer, he has gone too far.

The other accident fortunately was not as serious though very painful. A six year old approached his father who was casting a fair sized artificial lure. The father didn't see the child approach with the result that the youngster was struck in the face as the father snapped the plug back for another cast. One gang hook went completely through the eyelid going in and out but avoiding serious injury to the eye itself. Others imbedded themselves in nose and cheek and proved very painful and difficult to remove. This very close call should remind all of us to be extra careful when fishing from public parks or docks to watch for children on every back cast.
