GERALDTON HERE SUNDAY

Weather permitting, the Geraldton Softball Club will be here on Sunday to take on a local "hand-picked" team with the game slated to get underway at 3:00 p.m. This game will take the place of the one that was originally scheduled to take place a couple of weeks ago, but had to be postponed due to the untimely death of the Geraldton team's manager. Without a doubt, this Geraldton aggregation is a real smart ball club and from what we understand, have beaten Red Rock quite convincingly on several occasions, so our boys will have to be on their toes if they are to take this game. Be sure to include this game on your week-end programme, folks, if you appreciate smart, snappy softball.

HOUSE LEAGUE CHATTER

Last night Paul Coupal's Shift No. 3 team scored a thrilling 8 - 7 upset victory over Ed. Cavanaugh's Shift No. 2 team, thereby qualifying for the Shift Section finals with Frank Whitfield's No. 1 team. The game last night was closely fought and from this corner it looked like No. 3 took advantage of their share of the breaks and it cannot be denied they earned their win. Congratulations Paul and to Ed Cavanaugh: "Better luck next time".

Tonight, Maintenance take on Salaried for a sudden death game to decide who will meet Structural in the Day Section finals. Managers Dave McDonald of Salaried and Chuck Haviland of Maintenance are both confident of an easy victory and either way this game promises to be a hum-dinger. Game time is 6:30 p.m. but players are requested to be on hand at 6:15 sharp.

THINK SAFETY, ACT SAFELY AND ENJOY LIVING

Last Friday afternoon, LongLac Pulp and Paper Company was presented with two National Safety Council awards (an "Award of Merit" and a "Certificate of Achievement") by Mr. J. Fred Berry of Alton, Illinois. Mr. Berry presented the awards as Past General Chairman and member of the National Safety Council's Pulp and Paper Section Executive Committee. The awards were accepted by D. C. Porter, LongLac's Mill Manager and Dan Gillis, President of Local 665. Fred Soughton acted as Master of Ceremonies. An "Award of Merit" pennant was raised on the Mill flagpole by Bill Borsum. "Award of Merit" key chains were distributed to all LongLac employees.

Word has now been received that Kimberly-Clark Corporation (of which LongLac Pulp and Paper Company is a wholly owned subsidiary) has qualified for an "Award of Honor" (the Council's highest safety award to industry) by virtue of its low frequency rate during 1951 of 2.5.

While no accident prevention program should be conducted solely for the purpose of winning awards and setting records, such achievements are a measuring stick of the success of any program and as such are tangible evidence that safety pays dividends. So let's think safety, and act safely and enjoy living.
