

Rosemary Moores, Karen Olsen, Ernest Solly, Robert Wallwin, Kenneth Wood, Ronald Wilson.

Teaching duties at the Public School will be taken care of by Mr. Smith back as principal and teaching grades 7 & 8. Miss Windle to teach grades 5 and 6, Mr. D. Cairns will take care of grades 4 and 5 with Miss D. Whyte, another newcomer, looking after grades 2 and 3. Mrs. C. Smith will also be back again to teach grade 1. Miss B. McAdams in addition to her duties at the Continuation School will be caring for Music instruction at the Public School as well as the Separate School. Kindergarten will be under the direction of Miss Patricia Honer.

During the summer vacation, Mrs. C. Smith took a Primary Methods course at Summer School held in London, Ontario, as a means of keeping abreast of the modern teaching methods being used in the particular grade that she teaches.

SAFETY IS A LIFE SAVER TOO!

In the near future, around Terrace Bay, a lot of attention will be focused on the theme "Safety Is A Life Saver, Too!" The promotion, (developed in particular to maintain safety consciousness on the part of all LongLac employees) will include monthly distribution of sample packets of "Life Savers" (the candy variety). And at the end of each calendar month cartons of "Life Savers" will be drawn for in each unit which works without a lost-time disabling injury.

The draws will be based on a carton of Life Savers for each 25 employees in a department. If a unit has a disabling injury, all employees in that unit will be eliminated from the draw for the month in which the accident occurs. (For example, the Engineering Department, with approximately 200 employees will be entitled to draw for 8 cartons per month. If the Electrical unit should be so unfortunate as to have a lost-time injury on September 15th, all electricians would be eliminated from the Engineering Department draw for the month of September).

The promotion will spread over a four month period commencing September 1st as presently planned. The first draws for cartons of Life Savers will be held early in October, based on the safe operation of units throughout the month of September.

Softball - continued from page 1

Rebounding back after their initial setback at the hands of Shift #1, Structural won the next three games to become League Champions.

On Thursday night, Structural edged Shift #1 3-2. This was a close fought game and Shift #1 almost pulled the fat out of the fire when they scored 2 runs in the last inning. Adrian allowed only 1 hit in this game and although Whitfield was tagged for 8 hits, these were fairly well spaced.

Resuming the series Saturday evening, Structural came out on top by a score of 11-1. Shift #1 played very spotty ball committing 9 errors while their opponents were guiltless. Chopty with 3 hits was the big man at bat for Structural while Holancin accounted for Shift #1's only run with a homer.

Structural finished the series on Monday evening with Adrian pitching a 4-0 shutout and allowing only 6 hits. Burella with 2 doubles and a single and Wood with 3 singles supplied the power at the plate for Structural. Holancin walloped 2 singles for Shift #1.

Over the four game series Adrian collected 36 strikeouts or an average of 9 per game. His teammates meanwhile committed only 2 errors in 4 games and amassed 37 hits. Congratulations to the Structural nine. You are indeed worthy champions. Shift #1 put up a game battle and we wish them all the best next year.

The Executive of the Softball Club and the Recreation Committee wish to thank the fans for the fine support accorded softball at Terrace Bay this year. Your contributions helped greatly to defray the expenses of purchasing equipment and paying umpire fees. But above all we appreciated your loyal and vociferous attendance at the softball games. Fans make the game so we hope we will see you out at the enlarged field next year with your vocal chords well rested.
