

BOWLING continued from page 4.

(new bowlers are always welcome) but time is short and the entry deadline is Tuesday September 16th. The league will run with whatever teams are in by then. Hand in names or teams to Bill Borsum or Leon at the alleys. Meeting to plans leagues activities will be held Thursday, September 18th. (after first night of bowling)

Below is an entry form for anyone interested in bowling this year. Fill out, and place in a Terrace Bay News box, or hand it to one of the Bowling Association Executive (Al Lindskoog, Peter Mazza, or Lois Windle or Leon at the Alleys) before September 17th. Remember, even if you can't enter a full team, submit your name anyway, and you will be placed on a team.

TO ALL TENANTS INSTALLING THEIR OWN OIL BURNERS

The following procedure has been set up to ensure that all Oil-Burner installations made by Tenants in Company-owned houses are satisfactory and safe to operate.

1. Written permission must be obtained from the Townsite Supt. to install an oil-burner.
2. The oil burner installation must conform to the requirements of the National Board of Fire Underwriters, as set out in Pamphlet #31. A summary of these requirements may be obtained from the Townsite Supt. or the Fire Chief.
3. Installation must be done under the supervision of a qualified mechanic experienced in making such installations.
4. When the installation is ready for operation, the tenant must advise the Fire Chief and obtain his Certificate of Inspection and Approval before putting the burner into service.
5. All changes required by the Fire Chief shall be made before the Certificate of Inspection and Approval is given and before the burner is put into service.
6. Any changes made to the Installation after a Certificate of Inspection and Approval has been granted shall be subject to a further Certificate from the Fire Chief before being put into operation.
7. All parts of the furnace removed to make the installation shall be wired together and nailed to coal bin.
8. Any tenant vacating the house and removing the oil-burner shall restore the furnace to its original condition, ready for coal-fired operation.

C.E. Paget,  
Townsite Superintendent
