

TEN PIN CHATTER

Willy Adamo of the Royals was the hottest man on the alleys last night. His 3 scratch score games of 179, 174 and 169 for a total of 522 were the best showing of the encounter. Willy's fine effort enabled his team to take the Mighty Engineers into camp to the tune of 3 points. There was nothing at stake in this session. The Royals were ready, willing and able, whereas the Engineers were ready and able.

The Firebugs, aided by Bill Day's scratch score of 489, trounced the 3rd place Warehousemen for 3 points.

Power-packed though they may be, the Over-Heads were no match for Sechesky's B B's. The sad part of the Over-Heads' defeat lies in the fact that the B B's were forced to use a blind score through-out the series as one of their boys was absent. By taking 4 points, the B B's have advanced in standing from 6th to a 2 way tie for 3rd spot.

Honourable mention this week goes to The Battling (formerly Struggling) Bears, who, aided by Hi-Man Veitch's scratch score of 398 for three, were able to hand a 3-1 defeat to Whitfield's Shift #1 trundlers. Pete Diduch of the Shift #1 squad tossed in games of 135, 145 and 157 for a total scratch score of 437 but did not have sufficient support from his team-mates until the last game when they out-matched the Bears by 15 pins for the only Shift #1 point of the evening.

Team standing to date:

ENGINEERS	14	Shift #1	10
Over-Heads	11	B B's	10
Warehouse	11	Royals	7
Firebugs	11	Bears	6
